Guiding Your Path to Secure Innovation

Like a compass guiding explorers, Compass IT Compliance navigates your business through the complex terrain of cybersecurity and compliance. Our expertise ensures you stay on course, protecting your innovations and accelerating your journey towards success.

About Compass IT Compliance

Established in 2010, Compass IT Compliance has emerged as a leading national provider of IT security, compliance, and risk management solutions, serving a diverse range of industries and organizations regardless of size. Our enduring mission is to forge a partnership with your organization that not only aims to mitigate overarching information security risks but also guarantees exemplary customer service.

We offer comprehensive consulting and assessment services that address the full spectrum of IT security and compliance challenges your business may face. Our expert team provides deep dive analyses and practical solutions designed to align your business objectives with regulatory requirements, helping you foster a secure and compliant operational environment.

Our team is composed of highly skilled professionals from diverse industries, each bringing decades of valuable experience along with a host of certifications and accolades.

Our ethical hackers specialize in replicating sophisticated attack scenarios, allowing you to better understand and fortify your defenses against genuine cyber threats.

We hold the ethos of national service in the highest regard, proudly recognizing that 40% of our staff are veterans, embodying our core values of discipline and excellence.

Compliance Solutions Tailored For:

PCI DSS	NIST	SOC 2	HIPAA	CMMC
GLBA	CJIS	ISO 27002	GDPR	CIS Controls

Industries We Serve:

- Financial Services

- Goverment

"I have worked with Compass ITC for many years and I have found them to be very knowledgeable and helpful. Together we have established an internal IT audit partnership that works well for the bank and satisfies the examiners. I would recommend Compass!"
Senior Vice President of Internal Audit
Avidia Bank

Our Services

Penetration Testing
Proactively identify and attempt to exploit critical vulnerabilities, drawing remediation insights prior to a real-world attack

Vulnerability Management
Detect, categorize, and score vulnerabilities existing in your organization's website, applications, network, or devices

Virtual CISO (vCISO)
Leverage a team of veteran security professionals full or part-time to identify risks and enhance your security program

SOC 2 Reporting
Streamline your SOC reporting journey, from Trust Services Criteria (TSC) selection to completion of the final report

Compliance
Achieve and maintain compliance with the state, federal, and industry regulations and standards required for your organization

Risk & Business Resiliency
Assess your organization's present risk level and develop policies, procedures, programs, and plans to mitigate risks identified

Social Engineering & Awareness
Foster security awareness among your team and simulate real-world attack scenarios to assess the effectiveness of training

Cloud Security
Evaluate your organization's cloud infrastructure attack surface, identifying vulnerabilities in controls and configurations

Incident Response & Forensics
Assess the extent of a breach, mitigate damage, and preserve evidence for further analysis

White Label Security Services
Offer quality security services to clients and expand your offerings as our experts work under your brand

Compass IT Compliance collaborates with its affiliate entities to deliver comprehensive services. These partners include Compass Cyber Guard, a Veteran-Owned Small Business (VOSB) committed to providing premier IT security solutions, and Compass Assurance Team, an independent CPA firm that is fully licensed and accredited, specializing in SOC reporting services. Through these strategic partnerships, Compass delivers a seamless project experience, meticulously guiding clients through each phase of their IT security and compliance journey.
