## ABOUT US

Compass Cyber Guard, an affiliate of Compass IT Compliance, proudly stands as a certified Veteran-Owned Small Business (VOSB). Our roots in military service deeply influence our corporate culture, values, and business practices. At Compass Cyber Guard, we hold the ethos of national service in the highest esteem, a commitment that is not only embedded in our history but also actively shapes our future. We are dedicated to providing top-tier IT security solutions to our clients, embodying the values of service and integrity that are at the core of our veteran heritage. Compass Cyber Guard is not just a service provider; we are a partner in ensuring the digital safety and compliance of your organization. Trust in our expertise and experience as a veteran-owned business to safeguard your digital future.

## CORE COMPETENCIES

Compass Cyber Guard assists clients in mitigating their IT security and compliance risks within the following service areas:

- Penetration Testing
- Vulnerability Assessment
- Security Assessments
- Social Engineering
- Incident Response
- Digital Forensics

## DIFFERENTIATORS

Our group of ethical hackers are experts at simulating real-world attack scenarios – we are fully invested in helping organizations identify vulnerabilities and nurture a culture of security awareness. When you choose Compass Cyber Guard, you are not just getting one person; you are leveraging the collective knowledge of our entire team. Our staff bring with them decades of real-world experience within the federal, state, and local government levels. Our entire suite of solutions is completely customizable and scalable to meet many unique business challenges.
